**Weeks 19-24**

**Map Coordinates**  
 Understanding the Map  
 How do you know the location of a place on a map? You use map coordinates. Map coordinates are the lines of latitude and longitude that form a grid on a map. They help you find the location of a place on a map. They also help you understand the shape and size of the Earth.

**Map Coordinates**  
 Monday  
 1. What two names are given for the lines that run around the Earth in an east-west direction?

**Map Coordinates**  
 Tuesday  
 1. What two names are given for the lines that run around the Earth in a north-south direction?

**Map Coordinates**  
 Wednesday  
 1. What two names are given for the lines that run around the Earth in an east-west direction?

**Map Coordinates**  
 Thursday  
 1. What two names are given for the lines that run around the Earth in a north-south direction?

**Map Coordinates**  
 Friday  
 1. What two names are given for the lines that run around the Earth in an east-west direction?

**Map Coordinates**  
 Saturday  
 1. What two names are given for the lines that run around the Earth in a north-south direction?

**Map Coordinates**  
 Sunday  
 1. What two names are given for the lines that run around the Earth in an east-west direction?

**A Map Grid and Index** WEEK 4

**Antarctica**

**Legend**

- mountain range
- mountain peak
- ice shelf
- scientific research station

**Sentence Structure**

Name \_\_\_\_\_ Date \_\_\_\_\_

**Complete Sentences**

A complete sentence expresses a complete thought. A complete sentence has both a subject and a predicate.

The subject tells whom or what the sentence is about. The subject can answer the question, "Who or what is this sentence about?"

The predicate tells what happens or did happen in the sentence. The predicate is the action part of the sentence. The predicate can answer the questions, "What happened?" or "What did he or she do?"

Example: Graciela ran after the mailman.  
 To find the subject answer the question, "Who ran after the mailman?" "Graciela" ran after the mailman.  
 To find the predicate answer the question, "What did Graciela do?" Graciela ran after the mailman.

**Practicing**

Underline the predicate in each sentence.

Example: Marsha was knitting a blanket.

- Evan rode her dirt bike over the sand dunes.
- Alex lit the sparkler on the Fourth of July.
- Evan works as a police officer.
- Sean is his brother.
- Rachel runs a day care center.

Read the paragraph. Underline the predicate in each sentence.

Cat and John went to the movies. They took their little girl with them. Their daughter's name is Callin. The family went to see the latest picture showing at the local Theater. Everyone greatly enjoyed the film.

**Write On!**

On a separate sheet of paper, write a paragraph about a favorite movie. Exchange papers with a classmate. Underline the predicate in each sentence. Keep in mind that the predicate can answer the questions, "What happened?" or "What did he or she do?"
