This is Jane Pepler's Yiddish theater song sheet music archive. I made this site to house the rare Yiddish theater songs and folk songs I've been transcribing and arranging over the past decade or so. I perform them with my band Mappamundi or with a pianist, or just by myself. From 2011-2014 I searched out the melodies for over a hundred rare songs beloved in Warsaw, Poland between the wars, and the result was the 230 book, Yiddish Songs from Warsaw 1929-1934 and three companion cds (details at the Yiddish Emporium where you will find many other Yiddish songbooks, books, and cds, including American Yiddish Penny Songs by Morris Rund and others). The book has sheet music with chords, transliterated lyrics, translations, and extensive notes on the songs, including where I found them. It includes the songs not just from Zhetonek's seven little books of lyrics, but also the songs from "35 Newest Hits from Azazel and Sambatyon" (1929). You can buy the songs one by one for \$2.50 each (from the links below) or get the whole 230 page book They for only \$ 7 (digital download) by clicking on this button: click on the image to listen to my speech at the Library of Congress (October 2014) on the research and resuscitation of the Pre-Guerra Yiddish Cabaret songs lost now that the Zhetonek project is completed (except for 20 songs still lost). I'm still looking for rare Yiddish songs and transforming them into YouTube videos with English subtitles. Another project in progress is the search and recording of songs by the song book of Tiolement Morris Rund American Yiddish Penny Songs, see the blog Yiddish Penny Songs.The Yiddish Penny Songs Collection. I made the Broadides available in a facsimile edition. I am interested in feeling anyone, please write me at Jane@mappamundi.com if you have a place to suggest or have a rare record or a piece of score, or I just want to greet. Also, receive updates by clicking here: Join the mailing list. Yiddish Songs of the Jazz Age, my presentation of concerts of this research, was presented at the Library of Congress on 22 October. Read more on Janepepler.com. Contact me if you are interested in hosting a concert! Yiddish Song Index (Packages MP3 and SHOPS) Here is a list of some of the Yiddish songs for which I created scores and audio files. I continue to transcribe and record Yiddish songs, if you want one you don't see here contact me. (Most of the songs discussed on the Yiddish Penny Songs blog and the Polish Hebrew Cabaret blog are available.) This Yiddish score is on sale: each song is available as a download PDF chart (the melody written with agreements, transliteration and translation) for \$ 2.50 payable via PayPal to info@mappamundi.com also an and -mail if you purchased my CD somewhere and you need lining notes. After all: Yiddish and Jewish song books and the Mappamundi Klezmer Tunebook. Your purchase of MP3 files and scores is for your individual, personal use and not be copied, redistributed or resold. Please buy the number of copies you need, since there is further photocopies is illegal. Oysongs.com honors the rights of Oysongs.com artists who deserve a remuneration for their work. You are reading a free preview The pages 4 to 5 are not shown in this preview. You may have musical files on a musical CD that you would also like to have on an MP3 player. Or, you may have a collection of older CDs that you would like to convert into a more modern format. However, this process is easy. Some hypotheses before, some hypotheses. For reasons of this tutorial, it was assumed that the musical files that you would like to convert to MP3 to be on a music CD and that your computer has an optical disc capable of reading and playing music CDs. It is also assumed that you are using the system otamaic otamaic 3pm elif ni DC nu us ilacisum elif ied enoisrevnoc id ossecorp oteuq iuc ni odom la esab ni .retupmoc out lus swodniW tforciM id start, open computer optical disk and insert music CD that contains the files you want to convert to mp3. Close the disk drive door. If Windows Media Player is set to be the default computer CD playback software, then Windows Media Player can open automatically and start playing the CD. If this doesn't happen, you need to start Windows Media Player yourself by pressing the Windows Key + R, typing "wmplayer," and clicking OK. The player is running, click the "Switch to Library" button in the upper right corner. Now you will see a list of tracks (musical files) that are on the CD. If you want Windows Media Player to automatically fill the song information, make sure your computer is connected to the Internet; doing this can save a lot of time because it automatically fills with information such as the name of the song, artist, composer and more. You can use the checkboxes to select or uncheck the songs you want to convert; this is useful if you do not need the entire CD converted into mp3. Choose audio quality But wait — before you start converting files you need to select the correct resume settings for file type and audio quality. Press the "Put Settings" button and choose "Format" from the drop-down list. From these options, choose "MP3". Then press "Put Settings" again and choose the "audio quality" menu. The higher the quality, the better the converted mp3 file, but it will take more disk space. Rip CDora you can press the "Rip CD" button. Ripping a CD and converting files to mp3 can take several minutes. Once the process is completed, you can listen to new mp3 files or transfer them to an mp3 player or similar device.
