If you have an online Business Essentials, Business Essentials, or Business Professional plan, you'll need to download each Office app separately from the Google Play Store. Depending on how many files and folders you have, it may take a few minutes for everything to sync. Once the sync is complete, you can access, create, and share all your documents. Learn more Add my Microsoft 365 email address to Outlook on Android What are Office apps? Office 365 is a powerful productivity platform that lets you do more from any device. Here is a list of Microsoft programs that help you use Office 365 on the go. If you use Office 365 on an Android phone or tablet, we recommend using Outlook for Android. It provides an amazing feature called Focused Inbox, allows you to reschedule emails for later reminders, and customize simple drag-and-drop shortcuts to better organize your inbox. OneNote is one place for everything in your life. Use it to plan projects, take minutes of meetings, take notes, organize trips and keep track of important information. Spend a few moments in OneNote on any device and it will quickly become your favorite app. We couldn't speak more highly of OneNote, that is for all Office 365 users. Create, edit and share Word documents in the Microsoft Word app for Android phones and tablets. Microsoft Word is one of the most popular productivity apps on the Google Play store due to its rich feature set, ease of use, and ability to open documents from various cloud services and locations. Excel has been successfully ported to mobile devices. The new dedicated Excel app allows you to create, edit and share Excel documents. Use it in conjunction with Keyboard for Excel to really boost your Excel productivity on mobile devices. Create, edit and share PowerPoint presentations from your Android phone or tablet. Presenter View, a feature available only to Office 365 subscribers, allows you to view speaker notes on your phone or tablet and control the presentation on your computer. The new PowerPoint for Android is a big step up from the unified Office mobile app. After 100,000 reviews, it's a 4.4/5. With the OneDrive app, you can add personal and work OneDrive accounts and access your files from anywhere. View your files and files that have been shared with you. Quickly access your current documents or search in OneDrive. Open OneDrive files in Office apps and automatically save them back to OneDrive. Skype for Business, officially known as Lync, does exactly what the name suggests - it's Skype for your business. Use the mobile app to stay in touch with your teammates and regular Skype contacts from your Android phone or tablet. Yammer is the social network for your business. Post announcements, share praise, conduct surveys and collect feedback. Yammer is a great alternative to email group chats, it's integrated with Office 365 and has a great Android app. Outlook Groups is the new way to collaborate in Office 365. Create an Outlook Group for a group email address, rich newsfeed, OneNote notebook, and document storage. Outlook Groups for Android offers this feature. Microsoft purchased Sunrise, the best calendar app for Android, in February 2015. Sunrise connects calendars with Office 365, Outlook.com, Google, Facebook, TV shows, schedules of your favorite sports teams, and more. Sunrise also provides an easy way to decide when to meet people on the phone. Office Lens is a great app that lets you take photos or use existing ones and turn them into PDFs, editable Word documents, OneNote pages, or PowerPoint presentations. Take photos of documents and whiteboards and let Office Lens do the rest. Delve uses Office 365 data and machine learning to help you discover what your team members are working on in Office 365. Use Delve to find people, projects, and documents in Office 365. Office Remote for Android lets you control your PowerPoint presentation. from your phone. You can start or pause presentations, scroll through slides, view speaker notes, and more. You can also remotely control Word and Excel documents and present them on your screen or computer. The Power BI app for Android lets you view and work with Power BI dashboards from anywhere. You can set alerts for important dates and receive alerts when goals are met or not. If you're new to Power BI, give it a try. In our opinion, this is the most interesting Office 365 add-on available. Every Office 365 administrator must have this program. With Office 365 Admin, you can add, edit, block or remove users, reset passwords, assign licenses, check the status of Office 365 services and more. You can also log support requests and sign in to multiple Office 365 organizations from one app. Microsoft Send to Microsoft Garage, Microsoft's community project that turns crazy ideas into real projects. Microsoft Send looks like text and works like email, removing subjects, signatures and honorifics for quick and easy messaging with anyone who uses email. This app is for commands. Here is another app from the Microsoft Garage team. Keyboard for Excel adds a number-optimized keyboard to your Android device. It prioritizes the characters you use most in Excel (including the TAB key!) and is designed to increase the speed and efficiency of data entry on your phone. You can also download, upload, visualize and edit Microsoft Office Mobile documents in Word, Excel and PowerPoint at any time! This incredible application allows inclusive Que você escreva comentários a faça edições rápidas em qualquer documento. Support for graphics, animations, images and SmartArt formats, our documents with extaments iguais a seu PC. target! To access Office documents that do not have OneDrive, OneDrive for Business, or SharePoint, and Office Mobile is connected to a new one, all documents have been recently deleted and rendered, but not used in the past. o There is no phone, no new documents available automatically. Outros excelentes recursos include viewing comments and revised documents, visualizing and editing documents for Office trailers and email messages, as well as new Word and Excel documents not on your phone or anywhere else! official
