

Among us for pc free download latest version

Continue

Among Us for PC is not free, unlike the versions for iOS and Android. In case you want to enjoy the Windows version you can find it at a very affordable price of 3.99 euros. However, and as you can imagine, this is the internet and the vast majority of things can be found for free, and Among us is no exception. How to download Among Us for PC free with everything unlocked If you are a Windows user, you have several options to access the game for free (it is quite inconsistent that on Android is free and PC is not). The first and easiest, is to use an Android emulator for PC with which you can access the free official version for mobile. Being such a light game, any decent emulator (BlueStacks is a great option) can serve. Also, the gameplay doesn't change from mobile to PC, so you won't notice the difference. Download Among Us v2022.03.29s for PC for free [April Update] The second option, which is what most people are looking for, is to download the "pirated" version of the game, which features everything unlocked. In addition, this version is updated to the latest version of the official game (v2022.03.29s), and allows us to play normally in the public lobbies of the game. Download Among Us for PC (Última actualización) Among Us PC Windows Requirements The minimum requirements to be able to play from your PC are as follows: SO: Windows 7 SP1+ Processor: SSE2 instruction set support Memory: 1 GB RAM DirectX: Version 10 Storage: 250 MB of available space Latest Among Us updates The recent Among Us update finally brings the option to add friends within the game, with all the functions that this brings with it. v2022.03.29s - New Friends List! 2021.12.16s - Latest Version 2021.11.9 - New Roles & Cosmicubes 2021.7.20 - 15 Players 2021.6.30 2021.6.15 - The update that introduced the new mode with 15 players PD: Before downloading the game, keep in mind that it has a very low price on both platforms where it is available (Steam and Epic Games), and that will ensure automatic updates of the game without having to worry about searching for the files every time. We offer the file for those who can't afford to purchase Among Us (which is understandable, and I don't think the game developers would be against such people purchasing the game this way, as all their other apps are free and you could perfectly emulate the Android game from PC). We fully recommend purchasing the game from the official platforms, as it will enhance your experience with the game. Stay up to date with latest software releases, news, software discounts, deals and more. Subscribe February, 19th 2022 - 412 MB - Paid Latest Version: Among Us LATEST Requirements: Windows 7 / Windows 7 64 / Windows 8 / Windows 8 64 / Windows 10 / Windows 10 64 User Rating: Author / Product: Innersloth LLC / Among Us Old Versions: Select Version Among Us Filename: AmongUsSetup.exe Details: Among Us 2022 full offline installer setup for PC 32bit/64bit Among Us is an innovative 2D multiplayer game for PC focused on cooperative gameplay in a science fiction environment, where players are tasked to keep various spaceship systems healthy before the entire ship breaks into thousand pieces. However, mechanical faults are not the only challenges that players have to endure! In every game, one or more players have actually been replaced by shape-shifting aliens bent on sabotage and murder, putting both regular crew and alien impostors in an impossibly fun game of cat and mouse, with elevated stakes, unpredictable tactics, and fun exchanges between players. Built for fast gameplay, a wide array of tactics, several victory scenarios, and countless ways to make each game completely different from all others, Among Us for PC represents one of the most fun and easy to play cooperative experiences released in past few years. Among Us game via emulators BlueStacks and LDPlayer offers one objective to each part of the ship crew. The regular human crew is tasked to fill the group taskbar by competing maintenance tasks all across the ship, reacting quickly reacting to impostor sabotages, report any strange findings, hold emergency meetings, or ejecting the impostors from the ship. On the other hand, alien impostors only have to kill the crew in whatever way they manage, preferably by remaining anonymous, blaming some other crewmember for sabotage or kill, anonymously offing crewmembers when they are away from their friends, and quickly moving across the ship utilizing the hidden vents. Since the game is fully focused on cooperative gameplay, the developers of this app have enabled complete cross-play matchmaking between PC, Android, and iOS gamers, with support for both local LAN and Wi-Fi user discovery and online matchmaking for 4 to 10 player matches. The visual style of the game is simplistic but still eye-catching and detailed enough to provide a wide array of fun environments, gameplay tactics, and random systemic events that can surprise the players. Customization of the crew members is limited to only basic suit color and hat design. After it arrived on the gaming scene in 2018, this casual survival game has become a true hit among novice and young PC gamers, enabling them to experience engaging cooperative gameplay with a healthy dose of casual deception, turmoil, and friendly competition. The game has a built-in text chat function and deep integration with the Discord app for streamlined voice communication. System Requirements - Can I Run Among Us for Windows PC Among Us is an incredibly lightweight game, requiring PC gamers absolute bare minimum of system requirements such as 1 GB of RAM, any DirectX 10 graphic card, and just 250 MB of available storage space. The game is optimized to run on all modern versions of Windows OS starting with Windows 7 SP1. Stay up to date with latest software releases, news, software discounts, deals and more. Subscribe Among Us is an Action game developed by Innersloth LLC. BlueStacks app player is the best platform to play this Android game on your PC or Mac for an immersive gaming experience. Download Among Us on PC with BlueStacks and get in on the hit multiplayer action game about subterfuge and trickery! Play online or locally via WiFi in thrilling matches with up to 15 players, and work together to repair your broken spaceship before it goes kaput. But beware: some of the players are secretly impostors who want to sabotage the ship and kill all crew members. Win by completing tasks, repairing your ship, or discovering the impostors and voting to kick them off the ship. Unless, of course, you're an impostor! Then it's your job to lay low and quietly destroy the ship's components, one by one — or choose violence, and kill off the crew members without getting caught. Get in on the brand new update for Among Us! Featuring cool new content that enhances for more exciting chicanery and craftiness, there's never been a better time to play this social gaming sensation. Try out the new map, complete objectives to earn achievements, and try your hand at the brand-new roles and ways to play, like the rousing Hide n' Seek mode. And now you can link accounts between platforms so you can play wherever and whenever you want! Download Among Us on PC with BlueStacks and jump right into one of the most exciting social deduction gaming experiences around! You can also Play Among Us in your browser on your PC or mobile without downloading. Click and Play instantly! You will be automatically redirected to the homepage in 30 seconds. Among Us is a party game that offers a crazy and thrilling experience where players will have to discover who are the impostors and online, you will love to share breathtaking moments with people and your friends. CONTENTS Plot The main objective is to find the impostor among the crew of the spaceship before it takes off for its next mission. On the other hand, the impostor will do whatever it takes to eliminate the other crew members and sabotage the spaceship. But stay alert and decide quickly as his identity has to be revealed before he can bring his Machiavellian plans to fruition. Gameplay Strategy: Players will have to complete tasks in the spaceship while investigating and debating who they think is behind the evil deeds. If it's your turn to be the impostor, you must sabotage, lie, create chaos and do everything you can to avoid being discovered. Players: A typical Among Us game can have from 4 to 15 players, including a total of 1 to 3 impostors. At the start of every game a new impostor is assigned. Regular crew members will receive a list of tasks that must be completed during their stay at the spaceship. Stay alert: The crew can beat the impostor by completing all tasks before the impostor manages to sabotage the ship or assassinate all team members. However, crew members are extremely vulnerable while focused on their tasks. If you get distracted, the impostor can catch you by surprise so you will have to be constantly vigilant. Discuss: When an impostor kills one of the crew members, the body will stay there until someone finds it. At that moment, you can start a discussion round in which the crew will have to discuss who is suspected to be the impostor. Sabotage: Sabotage is something that only impostors can do. Keep an eye out for certain points of the ship that can be destroyed, shut down the reactors, and alter the oxygen levels. If you manage to destroy the spaceship before the crew completes their missions, you will be victorious. © InnerSloth Graphics Although it is a game with fairly simple 2D graphics, its gameplay is highly addictive. Once you start playing, you won't be able to stop! Duration and game modes Among Us is an online multiplayer game with cross-play possibilities between PC and mobile devices. It has recently incorporated a brand new game mode called Hide and Seek, in which the identity of the impostor is revealed at the beginning of each round and the other players have 5 seconds to find the perfect hiding spot. Among Us games can host between 4 and 15 players and each round has an average duration of 15 minutes. What do the reviews say? © Metacritic The game holds a Metacritic rating of 85 out of 100. "Such a simple, and yet such an amazing game. Among Us puts the crew of astronauts against an Impostor who looks the same as other players, but is on a task to sabotage and murder everyone. Gameplay works perfectly and can easily break a few friendships". (PLAY! Zine) Age rating © PEGI Among Us has been labeled PEGI 7. It does not feature scenes of explicit violence, but being an online multiplayer video game, users can encounter strangers playing the game. How to install and play Among Us on your PC for free? The official Windows port of Among Us is not playable for free, but the Android version is. Using our download, you can emulate the Android version on your PC and thus avoid having to purchase the game. We provide you with both the Among Us APK file and the BlueStacks emulator that will allow you to run the application on your PC. You just need to unzip the file and follow the steps described in the Installation instructions document.
